YOU WOULDN'T DRIVE WITH A BLINDFOLD ON.  
DON'T VIRTUALIZE WITHOUT THE RIGHT DATA.

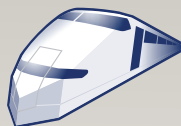

Nobody likes spending more money than they have to. Making a change in your server environment without the right data can result in unnecessary costs – and worse, unnecessary risks.

Softchoice's Server Virtualization Assessment can quickly and accurately help you plan and execute a server virtualization project.

Connect with us today.

## VIRTUALIZATION REALIZED

Our virtualization management solutions  
provide real protection for virtualized  
infrastructures.

Two of the biggest names in enterprise computing have teamed up to educate the public on how Symantec and VMware work together to provide solutions that cross over data protection, high availability, security and system management. We invite you to listen in on these entertaining and informative discussions covering a variety of topics.
